Confidence in every Clean

WypAll® brands offer a wide range of task-specific wipes and cloths designed to meet your industry, budget and absorbency needs. From wiping up grime, oil and grease, avoid cross-contamination to soaking up food prep spills, having the right wipe on hand is crucial to your operation.

Your responsible partner in sustainability

Kimberly-Clark™
PROFESSIONAL

As a market-leading company, we are committed to helping our customers meet their sustainability goals, elevating workplaces with the highest sustainability standards.

We deliver sustainable products and services by embedding sustainability in everything we do.

We can help you consume and waste less – ask us how.

Cumberhead wind farm, South Lanarkshire, Scotland supplying renewable power for UK operations.

We set ourselves ambitious targets to reduce the impact our products and operations have on the environment:

Waste
We are industry leaders in reducing manufacturing waste

100% manufacturing waste from our mill operations is diverted from landfill

Energy
We're reducing use across all our operations and investing in renewable sources like wind and solar

32% reduction in scope 1 & 2 greenhouse gas emissions at the end of 2023 versus 2015

Plastic
By 2030 we will reduce our plastics footprint by 50% over a 2019 base year

30% post-consumer recycled (PCR) plastic is used in our product packaging

Forest
Our products only contain recycled paper and virgin fibre from third-party certified suppliers

100% of virgin fibre used is from certified sustainable sources

79% recycled fibre in our tissue products*

The above statements relate to Kimberly-Clark Professional European mills.
*Based on 2022 fibre consumption data.

Did you know that WypAll® Cloths reduce waste by **78%** **compared to rags.** Try our Extended Use Cloths to see your cost impact.

Technologies overview

Airflex™

Airflex™ is our unique highly absorbent paper technology. The paper has open areas within the wiper to absorb fluids and a texture to pick up small particles. We have optimized the technology over the past 25 years to provide superior performance.

Hydroknit®

The most versatile choice for everyday industrial cleaning tasks. Hydroknit® is a mix of cellulose and nonwoven fibres that have been hydro entangled delivering a highly absorbent and strong wiper.

Meltblown

Great technology for low lint applications and for cleaning were fluid/chemical uptake and delivery is necessary. Compatible with a larger range of cleaners, solvents and sanitizing/disinfecting agents. Best chemical compatibility with leading chemicals (quats, bleach, hydrogen peroxide & peracetic acids) for sanitising and disinfecting applications.

DRC (Double Re Creped)

This base sheet technology produces a plush, soft surface with pockets in the inner layer to enhance absorbency and adding strength over a paper towel. Very soft on hands.

LDC (Light Dry Creped)

The technology creates multi-plies that gives fluid absorbency and surface cleaning. Cost-effective solution for general cleaning & wiping.

Spunlace

A blend of fibres that are entangled into a structure that results in surface texture, bulk, durability and/or fluid absorbency with metered fluid release. This technology is suitable for a broad range of performance attributes. Including: dispersibility to durability, varying levels of absorbency, durability, fluid delivery and chemical compatibility based on fibre selection and basis weight.

Which format is the best one for you?

Compact Roll
Portable and easy-to-handle rolls, perfect for small spaces.

Centrefeed
Versatile mid-size rolls for use inside or outside a dispenser.

Jumbo Roll/Large Roll
Large rolls with big sheets and high capacities, for process environments.

Quarterfold
Pre-folded square sheets, taken one at a time from a hygienic wrap or dispenser.

Interfolded
Sheets folded together so that dispensing one sheet pulls the next through.

POP-UP™ Box
Small and portable dispensing box of individual sheets.

BRAG™ Box
Mid-size double sided bench-top dispensing box of individual sheets.

Wettask™
Refillable, airtight system to pre-soak cloths with your chosen solvent or disinfectant.

Which colour?

Colour-Coded (Red/Blue/Green/Yellow)
Choose a colour-coded cloth to identify different wiping tasks in segregated cleaning.

Blue
Choose blue for food hygiene compliance, or for oil or water saturation to be visible.

White
Choose white to see that dirt has transferred from surface to sheet, or when dye-free is needed for use with chemicals.

WypAll® Range
Priority on Strength, Absorbency and Lint

WypAll® BRAND

The world's largest manufacturing companies trust WypAll®. That's because each product in the WypAll® range of **GENERAL**CLEAN™, **POWER**CLEAN™ and **CRITICAL**CLEAN™ has been carefully designed to deliver a custom cleaning solution for any task. From a simple water spill to industrial fluid absorption, from a hospital ward to the toughest manufacturing environment, WypAll® provides both effectiveness and efficiency to achieve a truly customisable and cost-effective clean.

Discover our full range online

	You'll find these in	Typical tasks	Key benefits
GENERALCLEAN™ Efficiency you can count on	• Hospitality, housekeeping • Healthcare • Retail, grocery • Restaurants, cafes • Lobbies, breakrooms • Facility maintenance • Classroom • Gyms	• Spray-and-wipe jobs • Wiping counters, desktops, glass • Personal wiping • General purpose cleaning	Fast absorbing Dust & dirt
POWERCLEAN™ Tackles the toughest tasks	• Automotive • Airline cleaning • Transportation • Utility work • Paint prep • Forestry	• Wiping parts and machinery • Absorbing grease & applying solvents • Low-lint surface prep • Away-from-sink cleaning of hands and tools	Absorbency Durable Low Lint
CRITICALCLEAN™ When your clean can't be compromised	• Restaurants, cafeterias, delis • Hospitals, long-term care facilities, medical offices • Office buildings • Government facilities • High traffic locations	• Cleans, sanitises and disinfects for 24 hours • Wet wiping, using your disinfectant or sanitiser • Cleaning food prep surfaces	No germs Food contact safe

GENERAL*CLEAN*™

Maintain a clean environment for employees and customers

Our **WypAll® GENERAL**CLEAN™ range provides **smart, easy solutions** that are ready to use when and where needed for **everyday cleaning and maintenance tasks** such as wiping spills or absorbing liquids.

L10, L20, L30 GENERAL*CLEAN*™

Create a clean work environment with effective light-to-medium-duty general cleaning solutions. Leave no debris behind – to make work easier, faster and more efficient.

WypAll® L family offers a wide range of wiping solutions. Clean, absorbent and durable paper wipes are designed with the customer needs in mind, along with versatile dispensing solutions.

POWER*CLEAN*™

Eliminate product waste and reduce time and effort on the production line

Only **WypAll® POWER**CLEAN™ enhances productivity with the right product for any heavy-duty or specialized production line task to allow you to effectively perform with **minimum time, effort** and **product waste.**

L40, X70, X80 & SPECIALITY POWER*CLEAN*™

Precision-engineered cloths with elevated technologies specially designed for medium to heavy-duty tasks, with all the benefits of a disposable product, but also being reusable for better cost-in-use and to drive more sustainable practices.

• L40 range: For tasks that require advanced absorbency for spills.

• X70 range: For tasks that require absorbing industrial oil and solvents.

• X80 Range: For tasks that require extreme durability on challenging surfaces.

• Speciality: For specialised application where sealing, polishing and pre-saturation is required.

CRITICAL*CLEAN*™

RIGHT PURPOSE WIPES

Go beyond all-purpose with cleaning solutions designed for your tasks.

A Kimberly-Clark Professional™ programme that helps you to find the appropriate nonwoven cloths for your specific application.

Scan to select the right wipes for your task

QR codes needs to be reviewed for local markets – currently drives to UK LP

Why do you need to go beyond all-purpose?

There is a science behind wiping and it all depends on the type of mess you are tackling. Our product development team at WypAll® meticulously analyses each substance and surface, and the ideal way of cleaning it.

Absorbing Liquid

Liquid absorption is done best by a wipe engineered with highly absorbent natural fibres.

Removing Oil, Grease and Grime

Oil, grease and grime removal depends on the texture of a synthetic fibre that conforms to the surface while remaining durable and absorbent.

Working With Solvents and Harsh Chemicals

Chemicals and solvents can erode the integrity of certain fibres. Synthetic fibres are more resistant to harsh materials without compromising performance.

Cleaning Challenging Surfaces

Rough and abrasive surfaces require a wipe that's higher in density and equipped with a weave and texture engineered for durability.

WYPALL® BRAND

Helping you create safe, productive and sustainable workplaces
